WHAT WE ARE:

Since 1980

B. Srinivasarao Power Constructions Pvt Ltd, established in 1980 in Nalgonda, Telangana, began its journey as an electrical contractor.

B. Srinivasarao Power Constructions Pvt. Ltd. has a rich history of accomplishments and expansions.

The journey began in 1980 with the completion of the 1st Sub-Station election.

By 1995, the company ventured into underground cable work in master planning.

In 2000, we established a transformer repair unit and completed 12 substations within six months. This period also marked the initiation of EPC Projects and HVDS.

The company further expanded in 2002 by starting transformer Division.

WHY BSR POWER ?

- 42 years Organization with Technically Strong in Manufacturing of Transformers
- About 2,00,000 Transformers are Operating Successfully
- Approved BIS & BEE (STAR RATING) Certified Organization
- Energy Efficient Transformers also Offering valuable Service
- In-house Testing facility
- On Time delivery

OUR PRODUCT RANGE:

16 KAV to 2.5 MVA As per Departments standers

SINGLE PHASE DISTRIBUTION TRANSFORMERS

Ratings: 16 KVA to 25 KVA
(APPLICABLE STANDERDS- IS 1180 (Part-1): 2014

THREE PHASE DISTRIBUTION TRANSFORMERS

Ratings: 16 KVA to 2500 KVA
(APPLICABLE STANDERDS- IS 1180 (Part-1): 2014

- » L.T network Line More than 1,00,000 KM
- » H.T Network -11KV line More than 90,000KM
- » 33 KV Network Lines More than 20,000 KM
- » Indoor/Out Door Substations (33 / 11 KV) – More than 450 Substations
- » Under Ground Cables 33 KV and 11 KV – 1000 Km

With a strong commitment to quality and innovation, we deliver reliable solutions delivered to meet industry standards. Our expertise ensures seamless execution, durability, and efficiency in every project. Backed by advanced technology and precision engineering, we continue to drive excellence, sustainability, and progress in the power sector.
